

PALLET

Redefining Space Division

WADDELL®
a **GMI** company.

Pallet display solution shown in Poplar Wood with an Urban Walnut finish and White laminate. Shown with optional Pallet Cubby accessory.

Bring Creativity to Your Environment

Designed to fit the needs of today's open-plan workspaces that are mobile, collaborative, and configurable; Pallet provides space delineation while allowing environments to feel open and airy. In addition to being a beautiful way to divide space, Pallet allows users to create collaborative work environments for meetings, brainstorming sessions, or even impromptu workstations with optional accessories.

Craftsmanship

Each Pallet is hand crafted in the USA by our wood artisans. Attention to detail make this a unique, space-division solution.

Durability

With a lifetime warranty, each piece of furniture is constructed of the best materials made to withstand the rigors of a high-traffic area.

Configurable

Adjustable shelves, electric, door pull options, and optional communication accessories allow for customization of use. Storage is added to conceal belongings.

Variety

Match any interior décor with two wood species, chosen for their durability, standard or custom stain options, combined three standard laminates.
