

# teknion

## PUNT

As a part of a new partnership, Teknion brings four popular mid-century modern collections from the distinguished Spanish furniture company Punt Mobles. Punt values art and design, and embraces a new kind of sophistication in the quality and combination of materials used for its furniture. This level of attention and craftsmanship is executed by Teknion Solutions in the manufacturing of these Punt collections for the North American market.

The collections – Literatura Open Shelf System, Mava Wood Guest Chair, Mitis Table, and Stockholm Credenza – come together to create private offices and meeting spaces that offer a more residential, yet sophisticated, atmosphere in a commercial environment. Individual pieces can be showcased alongside other Teknion products as signature designer elements to personalize, complement or transition any work environment.

# Mitis

## PCMT

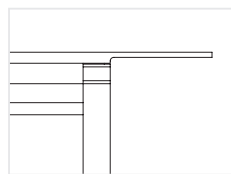

Mitis, from the Latin word for lightweight, is a collection of rectangular wood tables. Mitis is available with an optional glass top that offers a natural, essential and consistent expression. Mitis offers a solid appearance and exquisite detail both in the tabletop and trestle-like grooved legs. Tables are available in three heights and widths to accommodate both private offices and large meeting rooms.

### PRODUCT FEATURES

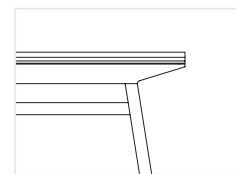

- Oak or Walnut construction with optional 10mm glass top
- Electrical options available for the wood top

### PRODUCT DETAILS

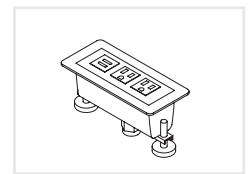

height	29", 36", 42"
depth	40", 48", 54"
width	72" - 216" (in 12" increments)
finishes	glass top: bronze glass 10mm wood top: available in Punt wood finishes wood base: available Punt wood finishes power module: black face plate with silver frame/trim

Electrical option not available for glass top.

If Electrical Outlets with two Power and two USB are specified, add, \$709 each module.

The number of modules included for each table is noted above.

Plinth wire management option is \$1,475 each. One or two plinths may be specified per table. This option is only available when a Power Module is specified.

# Mava

## PCMC

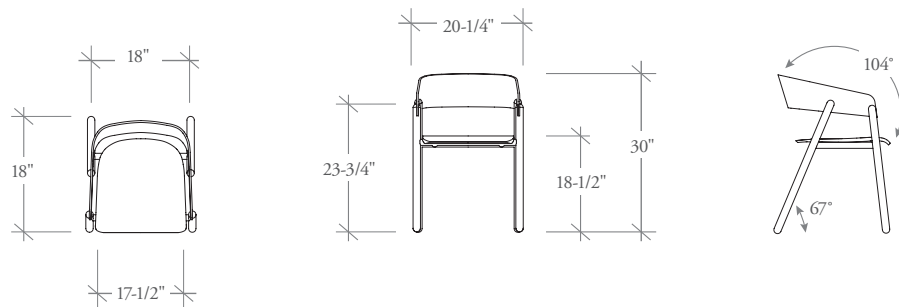

Mava is an elegant wooden armchair with a solid oak or walnut wood frame. Its light appearance makes it the perfect guest chair by bringing a unique element of warmth to smaller spaces. Mava is inspired by the image of original wooden clothes pegs from the early 20th century. Its legs are similarly slotted to hold the backrest, which has a wide, open form that seems to fly in the wind like a piece of laundry.

### PRODUCT FEATURES

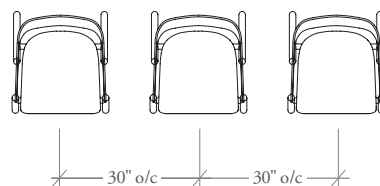

- All wood construction
- Available in Oak or Walnut finishes
- Weight capacity is 250 lbs

### PRODUCT DETAILS

width	21-1/2"
depth	21"
height	30"
seat height	18-1/2"
seat width	17-1/2"
back width	19-1/2"

# Stockholm

## PCSS

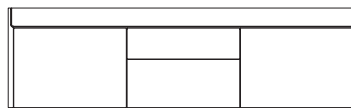

Stockholm conveys a new kind of sophistication with its combination of wood and metal elements. For a lighter appearance, there is a metal base. Stockholm can also be mounted to the wall. The credenza doors and drawers are without handles, showcasing the beauty and natural appearance of the wood grain as it flows across the storage fronts. Stockholm is finished with an elegant anodized aluminum top, which features precise styling and balanced radii.

### PRODUCT FEATURES

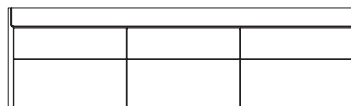

- Oak or Walnut case construction
- Anodized aluminum or solid surface top
- Available with or without a painted metal base
- Available with wall mounting options
- Optional wire management door with brush seal in the top surface; for cable routing only
